### EgonZehnder

Egon Zehnder International was founded in 1964 by Dr. Egon Zehnder with a distinctive vision and structure, focusing on top management; and remaining independent from the capital markets. This allows the firm to dedicate itself entirely to long term client relationships.

Besides executive search, and board consulting, the identification, evaluation and development of senior management talent in companies around the world continue to be the core activities of Egon Zehnder International.

Egon Zehnder International is operating from 66 wholly-owned offices in 40 countries - 420 consultants are organised around a single profit-center partnership.

This allows the firm to operate seamlessly when engagements call for multi office, cross-border collaboration or knowledge sharing.

### **ERNST & YOUNG** Quality In Everything We Do

The Ernst & Young Junior Academy Program is a unique and exclusive one week training event designed for young successors in family businesses. It exists to offer you a chance to explore how exciting, interesting and varied the entrepreneurial ocean can be.

At the Junior Academy Program, you will find out where your strengths lie, explore your interests and express your own needs for the future. The program provides them with the necessary guidance to achieve this.

Regardless whether you are planning concrete projects for your entrepreneurial future or want to widen your personal network of international young entrepreneurs, we will help you explore and accelerate your potential and encourage you to make a difference as a visionary leader.

Organised in collaboration with some of the most prestigious universities worldwide, the Junior Academy aims at pushing your limits, seize opportunities and make a difference !
